It is the endeavor of polling officers to ensure safe and fair elections in the state. It is somehow a difficult task to manage a lot of force and staff during elections. The polling officers serve as the face of Election Commission in front of candidates, polling agents and media.

We had developed a solution to make the task easy for the polling staff dedicated to assign the duty at zonal level polling stations.

## **Current Manual Working Style**

Collection of master data from different zonal and vidhan-sabha stations, which includes Force Data -- Employee Data, Inspector, Sub Inspector, Constable, Head Constable, Home Guards, Village Chowkidars & PVD

**The data is to be analyzed in different excel sheets and have to be allocated to the polling stations**

**Time taking process**

**If any new report is required, it will take more time to analyze and generate the report**

The process become lengthy and we have to maintain a lots of excel sheets in order to keep everything handy and at the bay.

**We have come up with the professional solution**  
**that will help in**

Duty allocation

Generating different reports at various levels

Print automated Duty Cards

Generate list by compairing data of Home district and other districts

Category allocation

Manak allocation

## What Software will do for you?

**Automatically import data present in excel sheets**

**Analysis of data**

**Decide the category and manak according to the place**

**Allocation of force – employee, inspector, sub-inspector, constable, head constable, home guards, village chowkidars and PVD**

**You are now ready to print the required reports and Duty Card**

## How Duty Card will look like after printing
